RE: Appeal No: A-2-MAR-080028 Lawson's Landing

Dear Commission Staff, Peter Douglas, Commissioner Steve Blank, Commissioner Sara Wan, Commissioner Dr. William A. Burke, Commissioner Patrick Kruer, Commissioner Mary K. Shallenberger, Commissioner Steven Kram, Commissioner Bonnie Neely, Commissioner Ross Mirkarimi, Commissioner Dave Potter, Commissioner Khatchik Achadjian, Commissioner Larry Clark, and Commissioner Ben Hueso,

I am a concerned California citizen who enjoys and supports the low-cost coastal recreational opportunities afforded by Lawson's Landing, including: camping, fishing, clamming, diving, boating, hiking and much, much more.

We are acutely aware of the need to balance public access and low-cost recreational facilities with environmental concerns. Approval of the Lawson's Landing Master Plan will allow the Lawson's to protect and enhance the environment while allowing the public to continue to share this valuable private property as it has done since the 1940's.

Closing down Lawson's Landing, or making it impossible for the landowners to stay in business, will severely limit coastal access for Californians, especially families of low and moderate income who cannot afford accommodations on the coast in Marin County. In solidarity, we Californians ask that this magnificent, affordable resource be allowed to exist for future generations of Californians, and that the Coastal Commission **preserve and protect** affordable coastal access at this unique destination. Please **BALANCE** environmental concerns with public access and other important policies. And *please* don't drive the Lawson's out of business!!!
