

Dear Coastal Commissioners and Commission Staff,

I SUPPORT LAWSON'S LANDING!! Please keep this low-cost, visitor facility open to Californians! There are no affordable accommodations like Lawson's Landing left on the coast, especially in Marin County. No scientific evidence has been presented establishing Lawson's Landing harms the water quality of Tomales Bay or the environment. Please **BALANCE** the immense value of this low-cost facility with environmental and other important Coastal Act policies. And, *please*, don't drive the Lawson's out of business!!!
